At Tumbulgum Public School we acknowledge the traditional custodians of the land on which we learn, the Bundjalung people.

We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander people.

As we grow and learn at school, we take the lessons of the past and work together to create a future that honours

Flood Recovery

On Monday I attended a North Coast Flood Recovery Day with principals and school leaders from across our region. The day was run by Headspace, who are well versed in recovery from natural disasters. It was a day of reflection on our recovery and forward planning to ensure our students and community take skills away from this event that will help them when faced with any traumatic events in the future.

Attached to this newsletter is some information about Headspace events to support you as carers after the flood. I would recommend them to you as an opportunity to develop your understanding of mental health and the help available.

The Northern Rivers Flood Recovery Program has started conducting site inspections at our school.

Last week, flood engineers visited. As well as our rebuild project manager, ecologist, architect, planner and environmental consultants.

Additional consultants will attend the school as we advance through the procurement process.

If you would like any more information, please come in and have a chat.

School Phone

We are still working to fix our phone after the flood. We have tried to disable messages and ask that you please don't leave a message. If we don't answer, please ring back. Alternatively you can contact me on seesaw. Leaving messages can be dangerous if the matter is urgent please persist with your call. Thanks for your understanding.
